

CLAIMS

WHAT IS CLAIMED:

1. A pet stroller comprising:
 - a) a frame comprising:
 - i) a bottom section,
 - ii) a tray disposed on said bottom section,
 - iii) a handle disposed on said frame,
 - iv) a plurality of wheels rotatably secured to said frame; and
 - b) an enclosure comprising:
 - i) an enclosure frame forming a bottom section of said enclosure, an outer section of said enclosure, and a plurality of end sections of said enclosure,
 - ii) a flexible material secured to said enclosure frame and covering said outer section of said enclosure and at least one of said plurality of end sections of said enclosure, and
 - iii) a door releasably secured to at least one of said plurality of end sections of said enclosure;

wherein said enclosure is mounted in said frame by placing said enclosure on said tray.

2. The pet stroller according to claim 1, further comprising a fabric layer disposed on said bottom section of said enclosure.

3. The pet stroller according to claim 1, wherein said frame comprises a plurality of side rails secured to said bottom section and a plurality of rear rails secured to said bottom section.

4. The pet stroller according to claim 3, wherein said plurality of side rails and said plurality of rear rails are comprised of metal tubing.

5. The pet stroller according to claim 4, wherein said metal tubing is welded or screwed together.

6. The pet stroller according to claim 1, wherein said flexible material is secured to said enclosure frame with adhesive, rivets or binding.

7. The pet stroller according to claim 1, wherein said flexible material comprises netting material.

8. The pet stroller according to claim 7, wherein said

netting material comprises fish netting.

9. The pet stroller according to claim 7, wherein said netting material is secured to said enclosure frame by rope or string which is wrapped through a hole in said netting material and around said enclosure frame.

10. The pet stroller according to claim 1, wherein said enclosure frame comprises a plurality of frame components.

11. The pet stroller according to claim 10, wherein said plurality of frame components comprise a plurality of semicircular hoop portions and a plurality of crossbars.

12. The pet stroller according to claim 1, further comprising a durable, water resistant material disposed on a portion of said outer section of said enclosure.

13. The pet stroller according to claim 12, wherein said durable water-resistant material disposed on a portion of said outer section of said enclosure covers approximately one half of the length of said enclosure.

14. The pet stroller according to claim 1, wherein said

enclosure is collapsible.

15. The pet stroller according to claim 1, wherein said frame is collapsible.

16. The pet stroller according to claim 1, wherein each of said plurality of wheels is comprised of rubber.

17. The pet stroller according to claim 1, wherein at least one of said plurality of wheels can rotate sideways for steering the pet stroller.

18. The pet stroller according to claim 1, wherein said plurality of wheels comprises four wheels.

19. The pet stroller according to claim 1, wherein said enclosure frame is constructed from a strong weather-proof material selected from the group consisting of aluminum, steel and heavy plastic.

20. The pet stroller according to claim 1, wherein said door is releasably secured to at least one of said plurality of end sections of said enclosure by a zipper.
